BE CAREFUL!

These products have warning labels on them for a reason. Before putting them in your car, take the following precautions:

- * Keep products in their original containers when possible.
- * Make sure products are properly sealed to prevent leaks and spills.
- * If a container is leaking, put it into a secondary leak-proof container.
- * Do not mix products together.
- * Dangerous reactions can occur when some chemicals are mixed.
- * Pack containers in sturdy boxes in the trunk of your vehicle, away from the driver, passengers and pets.
- * Cardboard boxes work well, but containers (other than gasoline cans) and boxes cannot be returned to you.
- * Please do not put items in plastic bags.
- * If a product does not have the original label, label it yourself if you are certain of the contents.
- * This will help us dispose of it properly.
- * Always store products in a secure place, away from children, pets, sparks and flames.

Do you have unwanted hazardous waste products stored in your home?

Common household products like lawn and garden pesticides, automotive fluids, leftover paints, and other potentially harmful chemicals can pose a significant threat to the environment if not disposed of properly.

Give them a new home!

Bring them to the Door County Household Hazardous Waste Program Collection site. We'll recycle them or dispose of them in an environmentally safe manner.

This program is sponsored by Door County. Just follow the simple guidelines in this brochure.
